For Every West Virginian to Subscribete The Resolutions Adopted by the secon District Republican Couvention s Eikins.

The INTELLIGENCER reprints the resu lutions adopted by the Second district Republicans at Elkins September, 5, for the benefit of those who desire to preserve them in this form, and separate from the proceedings of the conven-

That we reaffirm our loyalty and de-votion to the principles of the party as set forth in the platform adopted by the national Republican convention in

the national Republican convention in 1862.

That we endorse again with renewed emphasis the national economic policy which has promoted and protected the industrial development of this country, which has fostered the farming industry, and was never more necessary to the general welfare than in this day of Democratic prices and declining wasses. As Republicans we believe in fair compensation for labor of all kinds, whether of the factory, the mine, the farm; we point to the difference between the rewards of labor under Republican protection and threatened Democratic free trade, and we ask all lovers of their country to join us in rebuking at the polls the unpatriotic party which has confronted the people with this condition, happily hitherto unknown to this generation.

That we agree with Grover Clevaland, Persident of the United Sixtes that it.

tion, happliy hitherto unknown to this generation.

That we agree with Grover Cleveland, President of the United States, that in the enactment of the tariff bill passed by a Democratic Congress just adjourned, and which he bermitted to become a law, the party has been guilty of perfidy and dishonor, and with the Hon. William L. Wilson, that this same bill, which he voted to make a law, in a house with one hundred Democratic majority, gives the sugar trust \$40,000,000 of the people's money.

That we view with airm and concern the adoption of a policy by a Democratic administration that forces the country to do its business on a basis of lower prices, lower wages, profits and incomes; that cuts down the ability of the people to consume, and therefore lessens production, and will throw thousands of people out of employment. This policy the Republican party opposes with its now long tried and successful policy of plenty for all the people.

That we believe in good prices, good

ple. That we believe in good prices, good wages, active business, increased con sumption and increased production and condemn the strange political doc and condemn the strange postucat vertices of the Democratic party, which, while claiming that the necessaries of life will be cheaper, put it out of the power of the people to secure these necessaries for the want of means of employment.
We believe that the American mar-

We believe that the American mar-kets should be first for the use and bene-fit of the American people. In paying for products of our country we have both the product and the money at home, while it we buy abroad we have only the property purchased and the money goes abroad to benefit other neople.

money goes abroad to benefit other people.

We denounce as false the doctrine proclaimed by Grover Cleveland, William L. Wilson and other leaders of the Democratic party that it is wise and best for this country, in order to secure cheaper products, that the people should work for lower wages. The Republican party believes in good wages and fair remuneration for a day's work as being the best way to promote a as being the best way to promote higher and more prosperous civiliza

tion.

That coal, iron ere, lumber, wool and salt, being the chief products of the state of West Virginia, upon the development of which depends the prosperity of the state, we denounce the recent efforts and declared intention of the efforts and declared intention of the Democratic party to place these articles on the free list, thereby dividing our home market for the same with other countries, as an outrage upon the people of West Virginia, and we declare that the Democracy succeeds in its purposes to place these articles upon the free list and to allow them to come into the United States unrestricted it will retard the state paralyza its

and to allow them to come into the United States unrestricted it will retard the prosperity of the state, paralyze its industries and throw thousands of wage-carners out of employment.

That as Americans, loyal to our country and our state, we exhort all good citizens to bear in mind the declaration of renewed and continued war on our industries as made by the Democratic President and other leaders of the Democratic party; not satisfied with the havoe they have wrought, they have declared a war of industrial extermination on the line of free trade.

That we declare as Republicans that we are in favor of protection to the industries and in favor of American wage carners and good wages as against those of other countries.

That the appointment to high offices of persons who made large money contributions to the Democratic committee during the campaign has brought shame and scandal upon our country.

That the foreign policy of the present administration has been characterized by mistakes and follies from the beginning until now, especially so in the treatment of the Hawaiian question, where all the efforts of the administration were directed toward destroying a republic and restoring a monarchy.

We deplore the fact that for the first

where all the efforts of the administration were directed toward destroying a republic and restoring a menarchy.

We deplore the fact that for the first time in the history of the republic trusts and combines, home and foreign, and especially the Nova Scotia coal syndicate and the sugar and whisky trusts, under the plea of a tariff of reform, selzed upon and controlled the house and senate and the executive of the great republic, and have been able to dictate the legislation they needed to ensure enormous illegitimate profits at the expense of the people. In support of this charce, serious as it is, we refer to the statements of the President in his letters to Hon. W. L. Wilson and Hon. Thomas G. Catchings, and to the utterances of Democratic leaders in the house and the senate during the discussion of the second carrier the survey of the state of the second carrier to the same bill is an outrageous discrimination against the people of West Virginia.

We denounce the Democratic party

we denounce the Democratic party We denounce the Democratic party in Congress for destroying the principle of reciprocity which has opened to the products of our farms and workshows new and profitable markets without detriment to our laborers and manu-

As necessary to a complete policy of protection we favor learning such restriction of immigration as shall relieve to the protection of the striction of the st striction of immigration as shall relieve our labor of unfair competition of the cheap labor of other lands and protect the country from the increasing pres-sure of a dead weight of ignorance too often accompanied with helpless de-pendence and vice. We oppose the alien ownership of land. That to the honest, industrious citizens of the old world who desire to secure homes with us to become citizens and devote their means and industry to our national de-velopment and their love and venera-tion to the land and institutions of their adoption, we accord a hearty wel-come.

come.

We favor such amendments of the naturalization laws as shall require a longer residence in this country before

citizenship shall be granted, and strict-

er investigation into the antecedents of the applicants.

We believe that silver as well as gold the applicants.

We believe that silver as well as gold is the money of the constitution, and favor a financial policy with both metals as the basis through international bimetallism, to be secured by efforts of the national power, to be directed against such foreign nations as adhere to the single gold standard with no international agreement. We favor the free coinage of the entire American product at such ratio as the Republican representatives in Congress assembled may deem best. In the future all dollars should be of equal purchasing power to the end that a suitable currency, abundant for all wants, shall secure to all the people the full results of their labor. To this end we favor a uniform monetary system for all the nations of the American continent. We are amazed that the Democratic member of the house of representatives from this district of this state, who introduced the bill which took away in the increasing use of silver by the repeal of the so-called Sherman law, should have voted for forty or more kinds of local state money and endorsed "wild cat" money as preferable to silver.

The administration of the present pension bureau is a betrayal of the welfare of Union soldiers and sailors; we deplore the needless persecutions, suspicions, delays and privations to which they have been heartiessly subjected in procuring their just does. We de-

they have been heartlessly subjected in procuring their just dues. We de-nounce as illegal the suspension with-

nounco as illegal the suspension without notice or hearing of pensions once allowed. We demand that a pension once granted shall not be suspended except for fraud proven.

We welcome to cordial fellowship in the Republican party at this crisis the men who have heretofore been identified with other political organizations, but now adopt and support the principles herein enunciated, from patriotic considerations of the good of our distressed country. We applied the motives which lead them to place country above party, to seek first the welfare and prosperity of the people of the United States.

IRVING W. LARIMORE, physical director of Y. M. C. A., Des Moines, lowa, says he can conscientiously recommend Chamberlain's Pain Balm to athletes, gymnasts, bicyclists, foot ball players and the profession in general for bruises, sprains and dislocations; also for soreness and stiffness of the muscles. When applied before the parts become swollen it will effect a cure in one half the time usually required.

#### The Puzzle Solved.

The Puzzle Solved.

Perhaps no local disease has puzzled and baffled the medical profession more than nasal catarrh. While not immediately fatal it is among the most nauseous and disgusting fils the flesh is heir to, and the records show very few or no cases of radical cure of chronic catarrh by any of the many modes of treatment until the introduction of Ely's Cream Balm a few years ago. The success of this preparation has been most gratifying and surprising. No druggist is without it.
